GRAVOGRAPH, A FIRST-RATE PARTNER

At Gravograph, we realised many years ago that getting to grips with software requires a personal investment. Through our long experience in the engraving industry, we have strived to create the most approachable equipment and software. We have learned what it takes to help the operator reduce potential learning and usability challenges.

GravoStyle 5 is no exception to the underlying philosophy behind all Gravograph software:

**Simplicity + User-friendliness + Speed
=
Performance and productivity**

We have the results to prove it: **GravoStyle** has an installed base of over **25,000 licences** all over the world.

GravoStyle is also the culmination of a wealth of global experience over a wide variety of applications, all driven by GravoStyle.

Added to this experience is Gravograph's **network of specialised technicians at your service**. **Whatever the request, the Gravograph** technical support team is here to help you with a solution.

Choose Gravograph, choose **an investment built to last**.

DISCOVERY

DISCOVERY, USER-FRIENDLY ENGRAVING

- Discovery level of GravoStyle 5 is your first step into the fascinating world of engraving.
- With Discovery, you can choose any text style, using optimised engraving characters from the **Gravograph font library** or standard **True Type** fonts to mark and personalise any object.
- GravoStyle 5 is an **open architecture program**: even the most intricate of logos and graphics can be imported in a variety of formats (DXF, EPS, HPGL, BMP, JPG, GIF, TIFF, PNG and WMF). From Discovery level upward, data exchanges like Cut and Paste are straightforward with Word, Excel and many other software packages. Make your mark with GravoStyle 5: permanent marking of any text or graphics.
- GravoStyle 5 is a **carefully designed work tool** to support you day by day. The software provides quick and easy solutions to common every-day problems. For example, GravoStyle 5 will manage your plate and text sizing for you, allowing you to do your work in a simple, straight-forward fashion.
- GravoStyle 5 can be run with Windows 98, Windows 2000 or Windows XP.

GRAPHIC

GRAPHIC, SET YOUR CREATIVITY FREE

- Graphic level of GravoStyle 5 provides the optimum in 2D creativity. **Scan, vectorize, create logos from scratch, alter them**, and a wealth of advanced text functions and tools to help you realise your creative potential.
- Graphic level also opens the door to CAM or **Computer Assisted Manufacturing**. With CAM, you translate your design into a series of **tool paths** to create sophisticated components. Just imagine: plotting, drilling, sweeping, contouring, vinyl cut-outs, 2D, 3D, intaglios, 2.5D engraving with sharp angles, multi-tool machining sequences, finishing, prismatic lettering...The possibilities are endless.
- With Graphic, the world of **laser is at your fingertips too**. Photo editing, rubber stamps, bar codes, a nesting tool for significant savings on your material consumption, just to name a few of the important productivity features awaiting you. Totally integrated machine and software: engraving parameters, power, speed etc. are saved with your design. All this will save valuable time and eliminate errors.

TOTAL INTEGRATION OF THE MACHINE AND SOFTWARE: THE IDEAL SOLUTION FOR MAXIMUM ENGRAVING PRODUCTIVITY

- GravoStyle 5 is the first **multi-technology software** in the engraving industry. The synergy between GravoStyle 5 software and your machine enables you to realise your equipment's full potential, whatever technology you use.
- GravoStyle 5 is software with the **capacity to evolve**: it can rise to the challenge of your most complex designs. With multiple levels and options, you pay only for the functionality you need when you need it. Pick and choose from a range of options, such as photo editing and 2.5D engraving, to enable you to deal with custom requests.

- GravoStyle 5 is also versatile - able to drive **mechanical and YAG or CO₂ laser** engraving machines. No matter what material you are engraving now or in the future, Gravograph has the solution to meet your needs. Just one software for three perfectly integrated technologies: a significant saving to your **training budget**, among many other advantages.
- **Total integration** between GravoStyle 5 and third party machines - the software becomes a machine control able to drive a wide range of CNC equipment in G-Code and HPGL.
