

## Quiet

*Gravograph machines are quiet, enabling you to serve customers or answer the phone whilst the machine is at work.*

## Compact

*Only 1 sq foot of space is required to accommodate a Gravograph machine.*

## Easy to Use

*Thanks to Gravograph's unique Quickclick™ software and a host of "wizard" features such as laser pointer, learn to engrave within an hour.*

## Engraves Anything

*Plastic, metal, glass, wood, small or large letters, logos ... there is no limit to what a Gravograph system can do.*

## About Gravograph...

Gravograph is the world's largest manufacturer and supplier of permanent marking technology. The group was founded in 1955 and has subsidiaries across the world.

Gravograph is renowned for the quality of its products and services. Gravograph also provides you with the reassurance that you are dealing directly with a well established manufacturer.

Showrooms across the UK and Ireland.

Affiliate Member of the Master Locksmiths Association

## About our services...

### Technical support and training

We pride ourselves on the quality of our after sales support with a team of engineers and specialists across the country always on hand to help. Service contracts available.

### Tools, accessories and engravables

We also supply an extensive range of engraving material and accessories to use with our machines. Ask for our product catalogue.

# MARKING SYSTEMS FOR THE LOCKSMITHING INDUSTRY

**GRAVOGRAPH**  
UK

**Engrave padlocks, keys, locks and barrels** with ease whether brass or steel. Customers will have your contact details whenever they need to call a locksmith.

**Coin cylinders** without risk of damage to the pin mechanism. Unlike micro percussion (indent) machines, Gravograph systems do not strike the parts in order to mark them. And they are quiet too!

**Expand your business.**

Why limit yourself to only marking keys? With a Gravograph machine you can engrave pet tags, metal and plastic key rings, badges, door signs etc. In other words you could offer a complete engraving service.

Mr. Stefan Cox

## Used by MLA Members

*"I wanted to develop my business and needed more than just a key marking machine, so I contacted Gravograph. I am now able to offer an engraving service and have definitely increased my profits. Gravograph are a great company to deal with and in my view their machines are the best on the market."*
